

2018 Countywide Institute Day

March 2, 2018

Agriculture Everywhere!

Despite our suburban surroundings, agriculture touches everyone daily.

Did you eat breakfast? Brush your teeth? Get dressed? Play with a football? These things all rely on agriculture. This workshop is designed to aid educators in helping their students gain a larger understanding of the industry that many parts of the state are involved in.

FREE workshop, materials, and resources. Register early, we always fill up!
